

10-18-04 We are writing to ask you NOT to give LPFM priority over FM translator service. We listen to K-LOVE, 100.9FM, and losing that signal would be devastating to our family and community. KLOVE serves this community with positive, family friendly, commercial-free radio like NO OTHER station. They offer press releases for local events that are non-profit, parent/family/relational tips, great, encouraging music, as well as news, weather/Amber alerts. Without KLOVE, our city would have NO OTHER station that equals these positive benefits to listen to. We depend on KLOVE for uplifting programming and youth-friendly, contemporary music that reaches the younger generation with decency and positive programming. Please, help us keep our only commercial-free, positive radio signal. Thanks!
